To Love
Tomatoes

Vinecraft Instructions

Get ready for a fun, collaborative craft project!

The whole class will be building a vibrant tomato vine to brighten up your classroom or school.

There are 32 pieces to colour-in, one per child and maybe a few spare depending on your class size.

You can choose to cut them out or stick them up as whole cards to build your vine!

You can make many different vine shapes to suit your space, experiment with different shapes and layouts – check the back for some ideas!

NEED MORE PIECES?

You can head to the website to download and print out as many different pieces as you wish.

We'd love to see a jumbo vine take over the school!

DON'T FORGET TO SHARE!

We'd love to see your finished vine! Please share photos on social media with #GrowingToLove or email them directly to hello@vegpower.org.uk
